## **Wisconsin's Northern Bay Golf Resort Opens April 15; Play Replica Holes From Major Courses**

Starting April 15, weather permitting, golfers can play holes inspired by some of the most recognizable golf courses on the PGA Tour, at the new Northern Bay Golf Resort, a half hour north of Wisconsin Dells, on Castle Rock Lake. The par 72 course is the only Midwest course to offer a replica golf experience, according to Bill Ranguette of Waunakee, Wisconsin, one of the six partners in Northern Bay.

Golfers play legendary holes modeled after signature holes such as Oakland Hills, Augusta and Bay Hill, and also play challenging fairways carved out of woods and rolling terrain, some with vistas overlooking Castle Rock Lake. The front nine is 3691 yards. The back nine is 3532 yards for a total of 7223 yards.

Cost for public play is \$85 for 18 holes, with cart, Monday through Thursday and \$95, Friday through Sunday.

Ranguette said the resort offers attractive spring and summer Stay and Play Packages, which include lodging, golf, and some meals, with Tee Times available a year in advance for overnight guests. A total of 100 new and spacious condominiums are available for rent along the Castle Rock shoreline and the golf course.

Off the golf course, renters and owners can use the tennis courts, volleyball sand court, basketball courts and swim pool complex, which also includes a kiddies pool, whirlpool, picnic area and community gas grills.

Northern Bay Golf Resort & Marina is a \$150 million condominium vacation destination on Wisconsin's fourth largest freshwater lake at Arkdale, in Adams County, Wisconsin. It is designed to appeal to golfers, water fans, and families who want to be near the action at Wisconsin Dells but not in the middle of it, Ranguette said.

About 70 per cent of the 312 condominiums have been sold. All 47 home sites have been purchased. Construction is expected to start in May for The Lodge at Northern Bay, a condominium hotel, indoor waterpark, meeting facility, lakeside restaurant and spa.
