Spring 2008

Wisconsin's Northern Bay Golf Resort Offers Replica Holes From Major Courses

Golfers can play holes inspired by some of the most recognizable golf courses on the PGA Tour, at Northern Bay Golf Resort and Marina, a half hour north of Wisconsin Dells, on Castle Rock Lake, Arkdale, in Adams County. It is Wisconsin's only course to offer a replica golf experience.

Golfers tee off on legendary holes modeled after signature holes such as Oakland Hills, Augusta and Bay Hill, and also play other challenging fairways carved out of woods and rolling terrain, some with vistas overlooking Castle Rock Lake, Wisconsin's fourth largest fresh water lake. Northern Bay yardage ranges from 5197 yards to 7223 yards with five sets of tees to accommodate golfers of all skill levels.

Cost for spring stay and play through May 29 includes 18 holes of golf and one night's condo lodging for \$100 a golfer, based on quad occupancy and golf foursomes, Sunday through Thursday nights and \$110 Friday and Saturday nights. Packages include range balls and golf carts equipped with GPS.

Golf Digest has named Northern Bay one of the nation's best new public courses and Corporate Report Wisconsin Magazine awarded it one of the state's top two golf courses for business outings, as a result of their executive reader poll. The Golf Course Owners of Wisconsin named it the state's best new resort course.

Now teeing off for its third season, the year-round Northern Bay Golf Resort and Marina condominium vacation destination features 150 new and spacious condominiums available for rent along the Castle Rock Lake shoreline and the golf course. Some condos accommodate 10 people. Several condos are for sale.

Off the golf course, renters and condo owners can use the tennis courts, volleyball sand court, basketball courts and swim pool complex, which also includes a wading pool, whirlpool, picnic area and community gas grills.
